SKILLS

BACK-END: Java (17, 21) • Kotlin • Spring Boot • Microservices
FRONT-END: JavaScript • ReactJS • Component libraries • HTML/CSS
DATABASES: MongoDB • PostgreSQL • Oracle SQL • NoSQL
CLOUD & DEVOPS: AWS (ECS, EKS, ECR) • GCP (Cloud Run, App Engine) • Docker • Kubernetes • Kafka • Jenkins • Actions • Git • Terraform
SOFT SKILLS: Leadership • Problem-solving • Mentoring

PROFILE

Cloud-Native Software Engineer specializing in Java/Kotlin Backend, actively mastering Fullstack. Experienced in AWS & GCP architectures, driving technical ownership and innovation. Passionate about exploration, innovation, and continuous learning.

EXPERIENCE

OTTO GROUP ONE.O | SOFTWARE DEVELOPER

January 2024 – Present | Madrid, Spain

- Developing a cloud-native logistics project on Google Cloud Platform (GCP) as a full-stack developer, refining and implementing Java and Kotlin microservices for process and cost optimization.
- Collaborating with cross-functional teams to optimize capacity allocation against customer demand patterns.
- Contributing to the strategic migration from on-premise services to cloud-based architectures.
- Leading front-end development with ReactJS, implementing UI components from MaterialUI and PrimeReact libraries.

NTT DATA | ARCHITECT, SOFTWARE ENGINEER

March 2022 – December 2023 | Ciudad Real, Spain

Project: Vessel Management System (Cloud Native)

- Led the back-end development team in creating an AWS-based cloud-native system, designing a Java microservices architecture and establishing development standards.
- Managed deployment infrastructure with Docker, AWS services (ECS, EKS, ECR), and implemented monitoring solutions with Datadog.
- Developed and delivered comprehensive training programs for new team members, ensuring rapid onboarding and productivity.

Project: Cloud Migration - Energy Sector

- Led back-end development for migrating a monolithic on-premise system to cloud microservices based on Java, focusing on analysis, design, and test planning.
- Developed numerous microservices of varying complexity, specializing in middleware components with Apache Camel orchestration.
- Facilitated effective communication between front-end and back-end teams, ensuring seamless integration and project alignment.

INETUM & ITESTRA GMBH | JUNIOR DEVELOPER

Feb 2020 – Feb 2022 | Ciudad Real, Spain

- Gained full-stack junior experience through maintenance and development (Java/JSP/SQL) for public sector applications while successfully transitioning from Bachelor's to Master's studies.

EDUCATION

UNIVERSITY OF CASTILLA - LA MANCHA

MASTER'S DEGREE IN COMPUTER ENGINEERING
October 2021 | Ciudad Real, Spain

BACHELOR'S DEGREE IN COMPUTER ENGINEERING
June 2020 | Ciudad Real, Spain
SPECIALIZATION: SOFTWARE DEVELOPMENT

SIDE PROJECTS

FULL-STACK AND MOBILE DEVELOPMENT

2024 – Present

Focus on developing native applications (e.g., Android, Kotlin, KMP) and full-stack projects to acquire and deepen knowledge in new technologies and architectures. Includes personal utility projects and planning for larger scope applications.

CERTIFICATIONS

AWS Certified Solutions Architect - Associate
ITIL Foundation Certificate
